Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Talcott Resolution International Life Reassurance Corporation (the "Company" or "TIL") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed by the Department is shown below:

Note 20 - Fair Value Measurements

A. Fair Value Measurements

The Company's financial instruments held at fair value were not material.

Valuation Inputs for Investments

The Company's investment manager for the Company's general account (a registered investment adviser under the Investment Advisers Act of 1940), with oversight by the Company's Investment Management Department and its Finance and Investment Committee ("FIC"), a committee co-chaired by the Chief Investment Officer and the Chief Risk Officer of the Company, estimates the fair value for financial assets held in the Company's general account based on the framework established in the fair value accounting guidance. The Company reviews its investment manager's pricing policy on a periodic basis, with any changes to be approved by the FIC. The Company reserves the right to take exception to its investment manager's pricing of a particular asset and, with FIC's approval, to adjust the price received from its investment manager for that particular asset. The following section categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

For Level 1 investments, valuations are based on quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date

For the Company's Level 2 and 3 bond securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates.

A description of additional inputs used in the Company's Level 2 and Level 3 measurements is included in the following discussion:

Level 2 The fair values of most of the Company's Level 2 investments are determined by management after considering prices received from third-party pricing services. These investments primarily include bonds.

Level 3 The Company had no securities classified as Level 3 in 2022 and 2021.

B. Other Fair Value Disclosures

Not applicable.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The tables below reflect the fair values and admitted values of all admitted assets that are financial instruments.
