Note 1 - Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Talcott Resolution International Life Reassurance Corporation (the "Company" or "TIL") have been prepared in conformity with statutory accounting practices prescribed or permitted by the State of Connecticut Insurance Department ("the Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Connecticut for determining and reporting the financial condition and results of operations of an insurance company and for determining solvency under the State of Connecticut Insurance Law. The National Association of Insurance Commissioners' Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed practices by the State of Connecticut.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed by the Department is shown below:

C. Accounting Policy

- 2. The Company had no SVO identified investments in exchange traded funds or bond mutual funds that qualifies for bond accounting treatment.
- 6. The Company has no investments in loan-backed bond and structured securities.

No significant change to accounting policies.

D. Going Concern

The Company is not aware of any conditions or events which raise substantial doubts concerning the Company's ability to continue as a going concern.

Note 2 - Accounting Changes and Corrections of Errors

Accounting Changes

In 2023, the NAIC adopted INT 23-01 Net Negative (Disallowed) Interest Maintenance Reserve ("INT 23-01"). This interpretation prescribes optional statutory accounting guidance as an update to the existing guidance detailed in SSAP No. 7 – Asset Valuation Reserve and Interest Maintenance Reserve ("SSAP No. 7"), and allows the Company to partially admit negative (disallowed) interest maintenance reserve ("IMR") up to 10% of the Company's adjusted capital and surplus. The interpretation is effective immediately and lasts until December 31, 2025.

At June 30, 2024, the Company had \$17,647 of net negative (disallowed) IMR in aggregate which was admitted in the general account Statutory Statements of Assets. The Company has risk-based capital greater than the 300% authorized control level and the admittance of net negative (disallowed) IMR as identified above is not material in amount nor as a percentage to capital and surplus.

The fixed income investments generating IMR losses comply with the Company's management policies and there have not been deviations from such policies. The Company does not have investments in derivatives. The Company's asset sales that generated admitted negative IMR were not compelled by liquidity pressures.

Recently Issued Accounting Standards

In 2023, the NAIC adopted revisions to several statutory statements to finalize guidance throughout applicable standards related to the updated definition of a bond. The changes incorporate a principles-based definition which categorizes bonds as either issuer credit obligations or asset-backed securities. The changes primarily modify the following statutory statements: SSAP No. 26R – Bonds and SSAP No. 43R – Loan-Backed and Structured Securities, and in conjunction with the changes modify the title of SSAP No. 43R to Asset-Backed Securities. All changes will be effective January 1, 2025. The Company is currently evaluating the impact of the changes.

Valuation Inputs for Investments

The Company's investment managers Hartford Investment Management Company ("HIMCO") and Sixth Street Insurance Solutions, L.P. (both registered investment advisers under the Investment Advisers Act of 1940), with oversight by the Company's Investment Valuation Committee, a working group chaired by the Chief Financial Officer ("CFO") of the Talcott Financial Group Investments, LLC subsidiaries, manage the Company's investment portfolios to maximize economic value and generate the returns necessary to support the Company's various product obligations, within internally established objectives, guidelines and risk tolerances. The portfolio objectives and guidelines are developed, by the Company, based upon the asset/liability profile, including duration, convexity and other characteristics within specified risk tolerances. The risk tolerances considered include, but are not limited to, asset sector, credit issuer allocation limits, and maximum portfolio limits for below investment grade holdings. The Company attempts to minimize adverse impacts to the investment portfolio and the Company's results of operations from changes in economic conditions through asset diversification, asset allocation limits, and asset/liability duration matching and the use of derivatives. The following section categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

For Level 1 investments, valuations are based on quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date

For the Company's Level 2 and 3 bond securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates.

A description of additional inputs used in the Company's Level 2 and Level 3 measurements is included in the following discussion:

Level 2 The fair values of most of the Company's Level 2 investments are determined by management after considering prices received from third-party pricing services. These investments primarily include bonds.

Level 3 The Company had no securities classified as Level 3 in 2024 and 2023.

B. Other Fair Value Disclosures

Not applicable.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The tables below reflect the fair values and admitted values of all admitted assets that are financial instruments.
