Valuation Inputs for Investments

The Company's investment managers Hartford Investment Management Company ("HIMCO") and Sixth Street Insurance Solutions, L.P. (both registered investment advisers under the Investment Advisers Act of 1940), with oversight by the Company's Investment Management Department and its Enterprise Finance, Investments, and Capital Working Group ("EFICWG"), a working group co-chaired by the Chief Financial Officers ("CFO") of the Talcott Financial Group Investments, LLC subsidiaries, manage the Company's investment portfolios to maximize economic value and generate the returns necessary to support the Company's various product obligations, within internally established objectives, guidelines and risk tolerances. The portfolio objectives and guidelines are developed, by the Company, based upon the asset/liability profile, including duration, convexity and other characteristics within specified risk tolerances. The risk tolerances considered include, but are not limited to, asset sector, credit issuer allocation limits, and maximum portfolio limits for below investment grade holdings. The Company attempts to minimize adverse impacts to the investment portfolio and the Company's results of operations from changes in economic conditions through asset diversification, asset allocation limits, and asset/liability duration matching and the use of derivatives. The following section categorizes the inputs in the valuation techniques used to measure fair value into three broad Levels (Level 1, 2, or 3):

NOTES TO FINANCIAL STATEMENTS

For Level 1 investments, valuations are based on quoted prices for identical assets in active markets that the Company has the ability to access at the measurement date.

For the Company's Level 2 and 3 bond securities, typical inputs used by pricing techniques include, but are not limited to, benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and/or estimated cash flows, prepayment speeds, and default rates.

A description of additional inputs used in the Company's Level 2 and Level 3 measurements is included in the following discussion:

Level 2 The fair values of most of the Company's Level 2 investments are determined by management after considering prices received from third-party pricing services. These investments primarily include bonds.

Level 3 The Company had no securities classified as Level 3 in 2023 and 2022.

B. Other Fair Value Disclosures

Not applicable.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The tables below reflect the fair values and admitted values of all admitted assets that are financial instruments.

(Amounts in thousands)	September 30, 2023
